* Both of these players joined the team after a few events were already played.

This team was formed to allow the girls a chance to play in the spring and gain some exposure to college coaches. They played 40 games and finished their year with a 28-12 record, 4 tournament titles, and qualified for 3 different National Tournaments!!! They traveled to events Bloomington, Carmel, Greencastle, Louisville, Nashville, Plainfield and played several games at the Evansville Basketball Academy. They also were ask to play the Kentucky Jr. All Star team (They beat them as well). Having played against each other in high school not many of the girls outside the gym, it was neat to see the friendships that developed during this year. Not only did this team learn and grow on the court together, they gained a whole lot of respect for each other as well. Although this year was a learning experience with lots of highs and a few let down, all the players and parents would agree that it was well worth it
