What an outstanding group of very talented players! 11 of them went on to play college ball!! They competed in several huge events including: US Junior Nationals, 2 Super Regional, and a pair of NCAA Events. They completed their season with a 25-12 record and 3 tournament titles including the BCI Super Regional Crown in Louisville, KY. They were able to play an up tempo style of ball or more of the controlled half court game as well. They excelled at the defensive end hold opponents to an average score of only 38 points a game. This group of fine young ladies worked very hard on the court and all made a huge impact for their respective high school teams. This team laid the ground work for all of the future SWISH teams. It is highly unlikely that any one team will produce so many players at the next level.
