Girls Program:

We are planning on offering Girls teams from 5th/6th thru High School. Of course there has to be enough quality interest that can commit to our entire season to make this happen.

Grade School teams would start practicing in January (around the school feeder events) and play tournaments from late March thru the end of June if not into July. Teams will play 8-9 regional tournaments (under 4 hour drive times). High School aged teams will start practicing right away and expect to play 4-5 Spring Events, nothing in June except practices late in the month, and 3 NCAA Certified events in July.

I would encourage everyone to attend both tryouts as the more you are in front of the coaches the better your chances. If you are unable to make both please notify us which one you will not be able to attend so we know that you are still interested in being considered for the area's best run travel program for the past 15 years!

We highly encourage players interested in playing get a player profile turned in EARLY so coaches can watch you play before tryouts. Don't commit to other travel sports, feeder teams, or other programs until you have asked about our program. We are committed to your improvement, and won't kick you aside as soon as we find a better player like many other area programs There is a reason we have won 24 National Tournaments, have over 30300 wins, 175+ Titles, and have helped placed over 155+ kids at the next level!
