Noah Shooting Analyzer

Contact Phil Kessler for available times

3 -:45 minute slots \$90.00 a student

If you're currently playing in an EBA League and would like to take a training class in conjunction with that current league, you will receive a \$20.00 discount towards that training class. Offer is not available on Individual Instruction, Noah Shooting Analyzer or from Non EBA Leagues

EBA can also create a specialized small group class for any level of team. Individual instruction is always available. Contact Phil Kessler at info@ebahoops.com or 812-476-6654 for further details

Our classes get the results coaches are looking for!!!

WHERE YOU TRAIN DETERMINES HOW YOU PERFORM

Class Descriptions

For several years now the Evansville Basketball Academy has been offering a variety of training classes to serve all ages and talent levels of players. From the beginner to those home from playing overseas, EBA is the place where all players can expand their game with our array of training classes.

Lil' Hoopers is designed for the children ages 4 – 7 with little to no experience with the game of basketball. Class is a fun way to learn some of the very basic skills necessary to progress in the sport. Focus will be on dribbling, passing, catching without traveling, pivoting and basic rules

BB101 (Beginning Basketball 101) is a great introduction for all youngsters to the game of basketball. We will not only teach them the very basics of the game, but continue to reinforce those fundamentals over and over. In addition to teaching the basic skill sets, students also learn the rules of the game. Even if your child has had an introduction to the game, we know this class will be very beneficial to their development as they should never stop working on the fundamentals as they strive to grow as a player.

I.B.T (Intense Basketball Training) is designed for 3rd, 4th, 5th, and even some in the 6th grade. This class consists of at least 4 students and will help the student reach goals beyond their current level. Students will work on all aspects of the game as well as being introduced to stretching and some speed & agility drills. All players should be at an adequate fundamental level, have the desire to work hard and in good physical shape before attempting this class.

*****NEW*** Playmakers Edge** sessions are for those advanced individuals from 6th grade thru early high school that have had success at their current level, but are wanting to ensure future success as they continue to progress in their careers. *This class offers a fast paced, intense, competitive atmosphere that will cover a wide range of skills, controlled game action, and increase their fitness level. It teaches players how to create opportunities for their teammates, establish and use counter moves effectively and become a more efficient playmaker.* At this level all players will be expected to retain all instruction, be able to give a maximum effort the entire class, and be prepared for a workout that they may have not been exposed to before. This class is not recommended for players looking for a quick fix or just trying to get in shape.

A.S.W. (Advance Shooting Workout) sessions have quickly become EBA’s most popular training classes. Utilizing the *Shooting Gun 3 and/or the ShootAway*, each student will be able to get 150-200 shots up, while improving their ball handling, passing, and movement skills both with and without the ball. Because this class is a fast paced instructional class, it is imperative that all students are advanced enough and in good enough shape to handle these activities. Skill level is important, as each student will rely on the other students in most all of the drills in which they participate. **This class is for 6th grade and up only!!!!**

Noah Shooting Analyzer uses a high speed camera and computer software that allows our instructors to offer a wide range of tools to improve the students shot. We can capture video, breakdown their shot into 1/10 of a second frames, train the students on developing a consistent arch on their shot, or distance the ball passes the front of the rim. All 3 of these are critical on establishing and maintaining a consist shoot. Additionally, we are able to chart each student’s session, history of improvement, and a comparison to some of the area’s best shooters. These sessions are individual sessions, not small group work.
