45	Abby Rankin	6'2"	Hamilton Co. IL	'06

Head Coach: Phil Kessler

All great things must come to an end and this team is no exception. They completed their season with a 20-14 record after starting 1-7 (5 games by 5 points or less). They won both the Kentucky State Championship and the Mid America Youth Basketball Tournament in July. They played in 3 NCAA Certified showcases as well as 3 other regional events. I've received numerous calls from college coaches inquiring about several of these outstanding young ladies and I'm sure **at least 6** of them will be playing after high school. 3 of girls have been in the program from its inception and have completed a 3 year record of 69-36 against the best teams from around the country.

With 7 of the girls leaving next year some adjustments will have to be made so we can continue with the success that the previous teams have enjoyed. Coaches will be out watching lots of the area high schools games looking for players that have the talent and desire to play after high school.

The U-17 Green Team is comprised of all players from outside the Evansville area. They had strong showings at both NCAA Certified Events in St. Louis, the MAYB event in Evansville and the Kentucky BCI Championships in Florence, KY. They complete their year with a 16-16 record against some of the best teams in entire Midwest.

Because of other sports some of the girls played, high school team camps, and several commitment levels, we had to add players throughout the year and that made it somewhat difficult for the team to come together. We feel as if the foundation is in place, with some of these girls to have something special for the next few years at the high school division.

Indiana S.W.I.S.H. Girls U-15

50	Adrienne Rosebrock	5'10"	Castle	'08

Head Coach: Mick Stieler

Our girls U-15 team is comprised of the widest range of ages in the S.W.I.S.H. program. They were able to qualify for the State AAU Tournament even though some of them were 2 years younger than most of the players. Because of the huge age differences their record is very misleading at 5-13. Additionally, because of the an extreme amount of conflicts with school teams, other sports and vacations they were very limited in practices and games they were able to play.

We will be completely overhauling this age division and direction we are headed. This will include separating the players onto correct aged teams, ensure an acceptable commitment level, and improving their game to better themselves in high school. There are going to be several opportunities for area players to be apart of the S.W.I.S.H. program within these age divisions.

42	Kelsie Powers	Mater Dei	'10

Head Coach: Stu Oberg

The brightest team on the girls side has to be this team. They completed the year with a 35-11, won several events, and finished 5th at the State AAU Tournament in their first year together! This is a true team that plays unselfish basketball and plays at 110% from start to finish. We can not be more pleased the way they represented EBA and carried themselves all year long.

We are losing a few players to moving out of town and other sport commitments. This is causing us to make a few changes to the team. We might be adding another team in this age division. There were several talented players that were either not aware of the tryouts or already committed to other teams that have expressed interest in joining next year. Stay tuned for more details as next year approaches.

The girls had an outstanding year with a 24-7 record. They won several area events, and qualified for the State AAU Tournament. Without many local teams being competitive enough for this group, they will have to expand next year to more events outside the tri-state.

With this team being made up of both 5th and 6th graders, we are anticipating dividing this group up and form at least two teams for the upcoming year. We also have been in discussions with an outstanding AAU coach that is currently moving to the tri-state area, he has expressed interest in joining the program and running a girls teams for the next few years.
